PROFESSIONAL SUMMARY

Software and AI Engineer with 5+ years of experience designing and deploying scalable Python microservices and distributed AI systems on AWS and GCP. Experienced in building LLM-powered applications, multi-agent AI systems, multimodal AI, and multilingual NLP solutions. Strong background in Generative AI, NLP, and cloud-native architectures, with hands-on experience delivering production-grade AI services and APIs in cloud environments. MSc in Artificial Intelligence with specialization in NLP and large language models. Proven ability to architect and deliver reliable, high-performance conversational systems and large-scale AI applications.

EDUCATION

MSc in Computer Science - Artificial Intelligence **1:1 (81%)**
University of Galway. 2024 - 2025

MTech in Signal Processing **9.52**
APJ Abdul Kalam Technological University. 2017 - 2019

BTech in Electronics and Communication **8.5**
University of Kerala. 2013 - 2017

WORK EXPERIENCE

Data Science Institute (DSI), University of Galway **Nov 2025 - April 2026**
Research Assistant - Software Engineer *Galway, Ireland*

- Built a multi-agent AI model for detecting homophobic/transphobic, misogynistic content in multimodal, multilingual social media inputs.
- Developed a web application to consolidate research ideas, datasets, and source code, enabling easier access and collaboration across researchers and students.
- Technologies Used - Python, Django REST API, ReactJS, ORM queries, Postgres SQL, GCP, Hugging Face.

Aiton AI Technological Optimization **Feb 2025 - April 2025**
Full Stack Developer - Intern *Dublin, Ireland*

- Built a full-stack dashboard for managing cold email mailboxes using Django APIs and ReactJS pages.
- Technologies Used - Python, Django REST API, ReactJS, ORM queries, Postgres SQL.

Tata Consultancy Services (TCS) **Jun 2022 - Aug 2024**
System Engineer - Full Stack Developer *Kerala, India*

- Developed and maintained a Django REST API supporting 25K+ daily users, improving issue-resolution workflow efficiency by 40%.
- Designed and implemented advanced reporting and analytics features, processing 5,000+ saved queries.
- Collaborated with global cross-functional teams; leveraged Git for version control and code reviews to ensure code quality.
- Technologies Used - Python, Django REST API, ReactJS, HTML, CSS

Softnotions Technologies Pvt Ltd
Software Engineer - Backend Developer

Feb 2021 - May 2022
Kerala, India

- Developed REST APIs for Android and IOS apps to deliver articles, ensuring smooth user experience and content accessibility.
- Deployed services on AWS (EC2, S3) ensuring high availability.
- Managed a 5-member engineering team, mentoring junior developers and conducting code reviews.
- Technologies Used - Python, Django REST API, Postgres, ORM queries, AWS - S3 Bucket, EC2 instance

International Centre for Free and Open Source Software (ICFOSS)
Research Fellow - Software Engineer

Aug 2019 - Feb 2021
Kerala, India

- Designed and implemented chatbots for Kerala Government (COVID-19 Information, Social Security Bot).
- Applied NLP methodologies to support regional language understanding.
- Built scalable back-end services in Python (Flask, MySQL) integrated with web frontends.
- Technologies Used - Python, Flask, MySQL, HTML, CSS

KEY SKILLS

- **Programming** : Python, ReactJS, Django REST Framework, Flask.
- **AI/ML** : NLP, GenAI, LLM prompt engineering, Hugging Face Transformers, RAG, NLTK, Vector DBs.
- **Cloud** : AWS (EC2, S3), GCP Deployment & Monitoring.
- **Collaboration & Tools** : Git (Version Control), Agile, Code Reviews, Mentorship, Peer Programming.

ACCOMPLISHMENTS/AWARDS

- Best Thesis Award for MSc Computer Science - Artificial Intelligence 2024-2025.
- Best Poster Presentation Award under Engineering and Technology at 34th Kerala Science Congress.
- Played a key role in delivering live projects for the Government of Kerala during the COVID-19 pandemic.
- Presented a software solution in the ICON-2020 and ICON-2021.
- College Topper: M.Tech(2019) and B.Tech(2017).

LANGUAGES

- **English** - Fluent in Speaking, Writing, Listening and Reading.
